

PETITION: Adopt a Moratorium on New Large Scale Developments in Lansing, New York

To the Members of the Town of Lansing Board,

We strongly urge you to adopt a moratorium on any new large scale development in the Town of Lansing while you are revising your zoning laws. This is fully within your legal right, and is common practice among towns while they are within this process.

This moratorium would not prohibit small businesses from flourishing within the Town, nor would it put limitations on any previously approved projects.

As residents, business owners, organizations and elected officials of Lansing and the broader Cayuga Lake and Finger Lakes region, we have a vested interest in the future vision for our area- a place rich with fresh water, clean air, and a healthy environment; a region that depends on these qualities for its driving economic engine- agriculture and tourism- which generates \$4 Billion for New York State annually, supports 60,000 jobs, and is currently being reviewed for a National Heritage Designation by Congress.

Some have spent generations building the Finger Lakes brand, which is now a world-class wine and tourist destination for millions. We have fought long and hard to protect this region from predatory industrial corporations seeking to profit at our expense, and we caution the Town to consider these efforts when making determinations that could have region-wide and even state and national implications. Taking the time to carefully consider this and all of the relevant issues facing the community, and making sure that the decisions made are consistent with your community character is precisely what a moratorium is designed to do.

It is essential that local governments retain uncompromised authority to adopt lawful moratoriums while they revise their zoning laws. We strongly urge you to take this vital step to protect your community, your fellow neighbors in the broader Finger Lakes, and the environment while you effectively respond to emerging challenges.

Signed,

Finger Lakes Businesses
